

Return and Warranty Policy Statement

1057246A • October 2006

Copyright © 2006, GE Security

Introduction

This *Return and Warranty Policy Statement* applies to GE Security equipment purchased directly from GE Security. If you have acquired GE Security equipment through a distributor, return the equipment to the place of purchase.

As all statements herein are subject to change, please check our website at www.gesecurity.com for the latest policy.

If you have questions about this policy, contact the appropriate customer service center.

Effective date of this policy: October 1, 2006.

Returning GE products

Before you can return any product to GE Security, you must obtain a return material authorization (RMA). This applies to all product returns, including warranty repair/replacements, nonwarranty repairs, credit returns, and advance replacements.

To obtain an RMA, contact the appropriate GE Security customer service center (see *Customer service centers*) for your product, and have the product and the following information ready:

- Original PO number
- SKU/part number
- Serial number

Customer Service will provide you with an RMA number and an RMA acknowledgment form that confirms your request.

Once you have the RMA, repackage the product appropriately (see *Packaging your shipment* on page 2) and attach the RMA acknowledgment form on the outside of the package. Then send the product to the return location given by the customer service center.

All products must be returned freight prepaid within 30 days of obtaining an RMA. We reserve the right to cancel the RMA after 30 days. If you fail to return the product within the 30 days, please contact Customer Service to get a new RMA.

We will not accept unauthorized returns or freight collection returns; we will return these to you at your expense.

If a returned product contains parts that are no longer available or repairable, we will contact you to discuss resolution and return of the material.

The repair department will evaluate all equipment returned for repair to determine warranty coverage and will resolve any questions that may arise during evaluation to make a final determination.

Note: Dealer and distributor return policies may vary based on prior contractual agreements. If you are a GE Security Pro dealer or GE Security Integrator, check our dealer program website at <http://www.gesecurity.com/dealerprograms> for additional warranty information.

Warranty repair/replacements

Subject to the terms of the limited warranty in effect at the time of purchase, GE Security will repair or replace a product that fails to meet the terms provided, within the product's warranty period. The actual warranty period starts from the date of shipment from GE Security's facility or point of origin, and varies based on product category and type of equipment, as shown in *Table 1* on page 2.

For all warranty repairs, GE Security will cover parts and labor. We will return equipment via the same incoming ship method at no additional charge. If you request a different return ship method, we will charge for the full shipping cost.

Nonwarranty repairs

Nonwarranty repairs are granted an extended warranty of 90 calendar days for all products except for fire products, which are granted an extended warranty of one year.

For all nonwarranty repairs, GE Security will provide you with a repair estimate that includes charges for parts, labor (in half-hour increments), and all shipping. Repair charges may be based on a flat rate or parts and labor, and will vary based on actual equipment and condition. You may pay for nonwarranty repair charges by purchase order or credit card.

Note: Nonwarranty restrictions do not apply to IFS equipment.

Credit returns

GE Security will refund or credit new, standard production items that are unused and in original shipping cartons, for a period of 60 days from the original date of shipment. All returned merchandise is subject to a 20% restocking fee.

You may return fire-related merchandise for credit up to 365 days from the date of shipment or invoice, but any returned product is subject to a 25% restocking fee if your credit request comes more than 60 days after the original ship date.

You must use credit within one year of the date of issue.

Note: Credit is not available for custom products.

Advance replacement

Advance replacement products are new or like-new refurbished products and carry a full original equipment warranty. GE Security will send advance replacement product to replace defective equipment that has failed upon initial install for up to 60 days from the original date of shipment and up to 365 days for select equipment.

We will ship advance replacements via ground the next business day. (We may ship emergency replacements by air the same day, after we verify that the product is defective.)

Our repair department will evaluate the returned product to determine whether it is a warranty or nonwarranty replacement and bill you accordingly.

Advance replacements will be invoiced at shipment and credited upon receipt of the defective product. Invoices will remain outstanding if the returned product does not qualify under the replacement terms.

Note: Advance replacement is not available for custom products.

Refurbished B-stock products

GE Security occasionally offers select products for sale as B-stock—units that have been used in the field and refurbished. B-stock and advance replacement products—though they may come from the same pool of products—are covered by different warranty conditions and durations.

B-stock products come with a 90-day limited warranty.

Packaging your shipment

Protecting the value of returned products by packaging and shipping them correctly is your responsibility. We reserve the right to deny warranty coverage for any damage caused by failing to meet the following packaging requirements:

- All electronic components must be taped and/or contained in their original electrostatic protective packaging or an equivalent substitute.
- All parts must be packed securely inside the external shipping carton to prevent mechanical damage.
- External packaging must be sufficient to protect the contents from the usual hazards of shipping.

Product warranty periods

Table 1 lists warranty durations for most GE security equipment, sorted by category. All warranty periods start from the date of shipment from GE Security’s facility or point of origin.

For items that do not appear in Table 1, contact Customer Service or your sales rep for the applicable policy.

Table 1. Product warranty periods

| | Product | Warranty |
|---|--|----------------------|
| Access | Proximity readers | Lifetime |
| | Cards (minimum 10 cards for return) | 5 years |
| | Manufactured hardware | 2 years |
| | Magstripe cards | 1 year |
| | Topaz, Diamond, Sapphire, Alliance, other software products | 1 year |
| Fire | Fire alarm control panels | 3 years |
| | Heat and air duct detectors | 3 years |
| | Heat detectors | 3 years |
| | Notification appliances | 3 years |
| | Pull stations, fire stations | 3 years |
| | Smoke detectors | 3 years |
| Healthcare | Manufactured hardware | 3 years |
| | Computers, file servers, monitors, touchscreens | 1 year |
| | Pillow speakers, call cords, remote controls | 1 year |
| | All custom items | 1 year |
| Home | Fuses, lamps, batteries | None |
| | Smart ConnectionCenter sheet metal parts and wire | 40 years |
| | Smart ConnectionCenter passive modules and components | 5 years |
| Intrusion | Smart ConnectionCenter powered modules and components | 3 years |
| | Hardwired contacts | 5 years |
| | Hardwired sensors | 5 years |
| | Wireless sensors | 2 years |
| Video | Security controls | 2 years |
| | IFS fiber optic products | Lifetime |
| | Fiber Options fiber optic products | 5 years |
| | Digiplex, traditional cameras | 3 years |
| | VideoIQ, StoreSafe, ProBridge, DVMRe Triplex, DVMRe Pro, SymDec | 3 years |
| | Digia | 3 years ^a |
| | CyberDome | 3 years |
| | Legend and Accord PTZ cameras | 2 years |
| Monitors (traditional, LCD, MobileView) | 1 year | |
| Voice | Manufactured hardware | 3 years |
| | Computers, file servers, monitors, touchscreens | 1 year |
| | Remote controls | 1 year |
| | Fuses, lamps | None |
| Other | Edwards Signaling products | 2 years |
| | GE-branded third-party OEM (original equipment manufacturer) product | OEM warranty |
| | B-stock products | 90 days |

a. Digia digital video recorders have a one-year warranty on hard disk drives. All other components are warranted for three years.
